SPAIN

Spain is an exclusive destination with a long hunting tradition and a large selection of game species.

Our Spain hunting trips are a combination of amazing natural landscapes, high quality of the hunt, delicious gastronomy, and charming accommodation. Everything gives you a unique Spanish

hunting adventure with IberHunting.

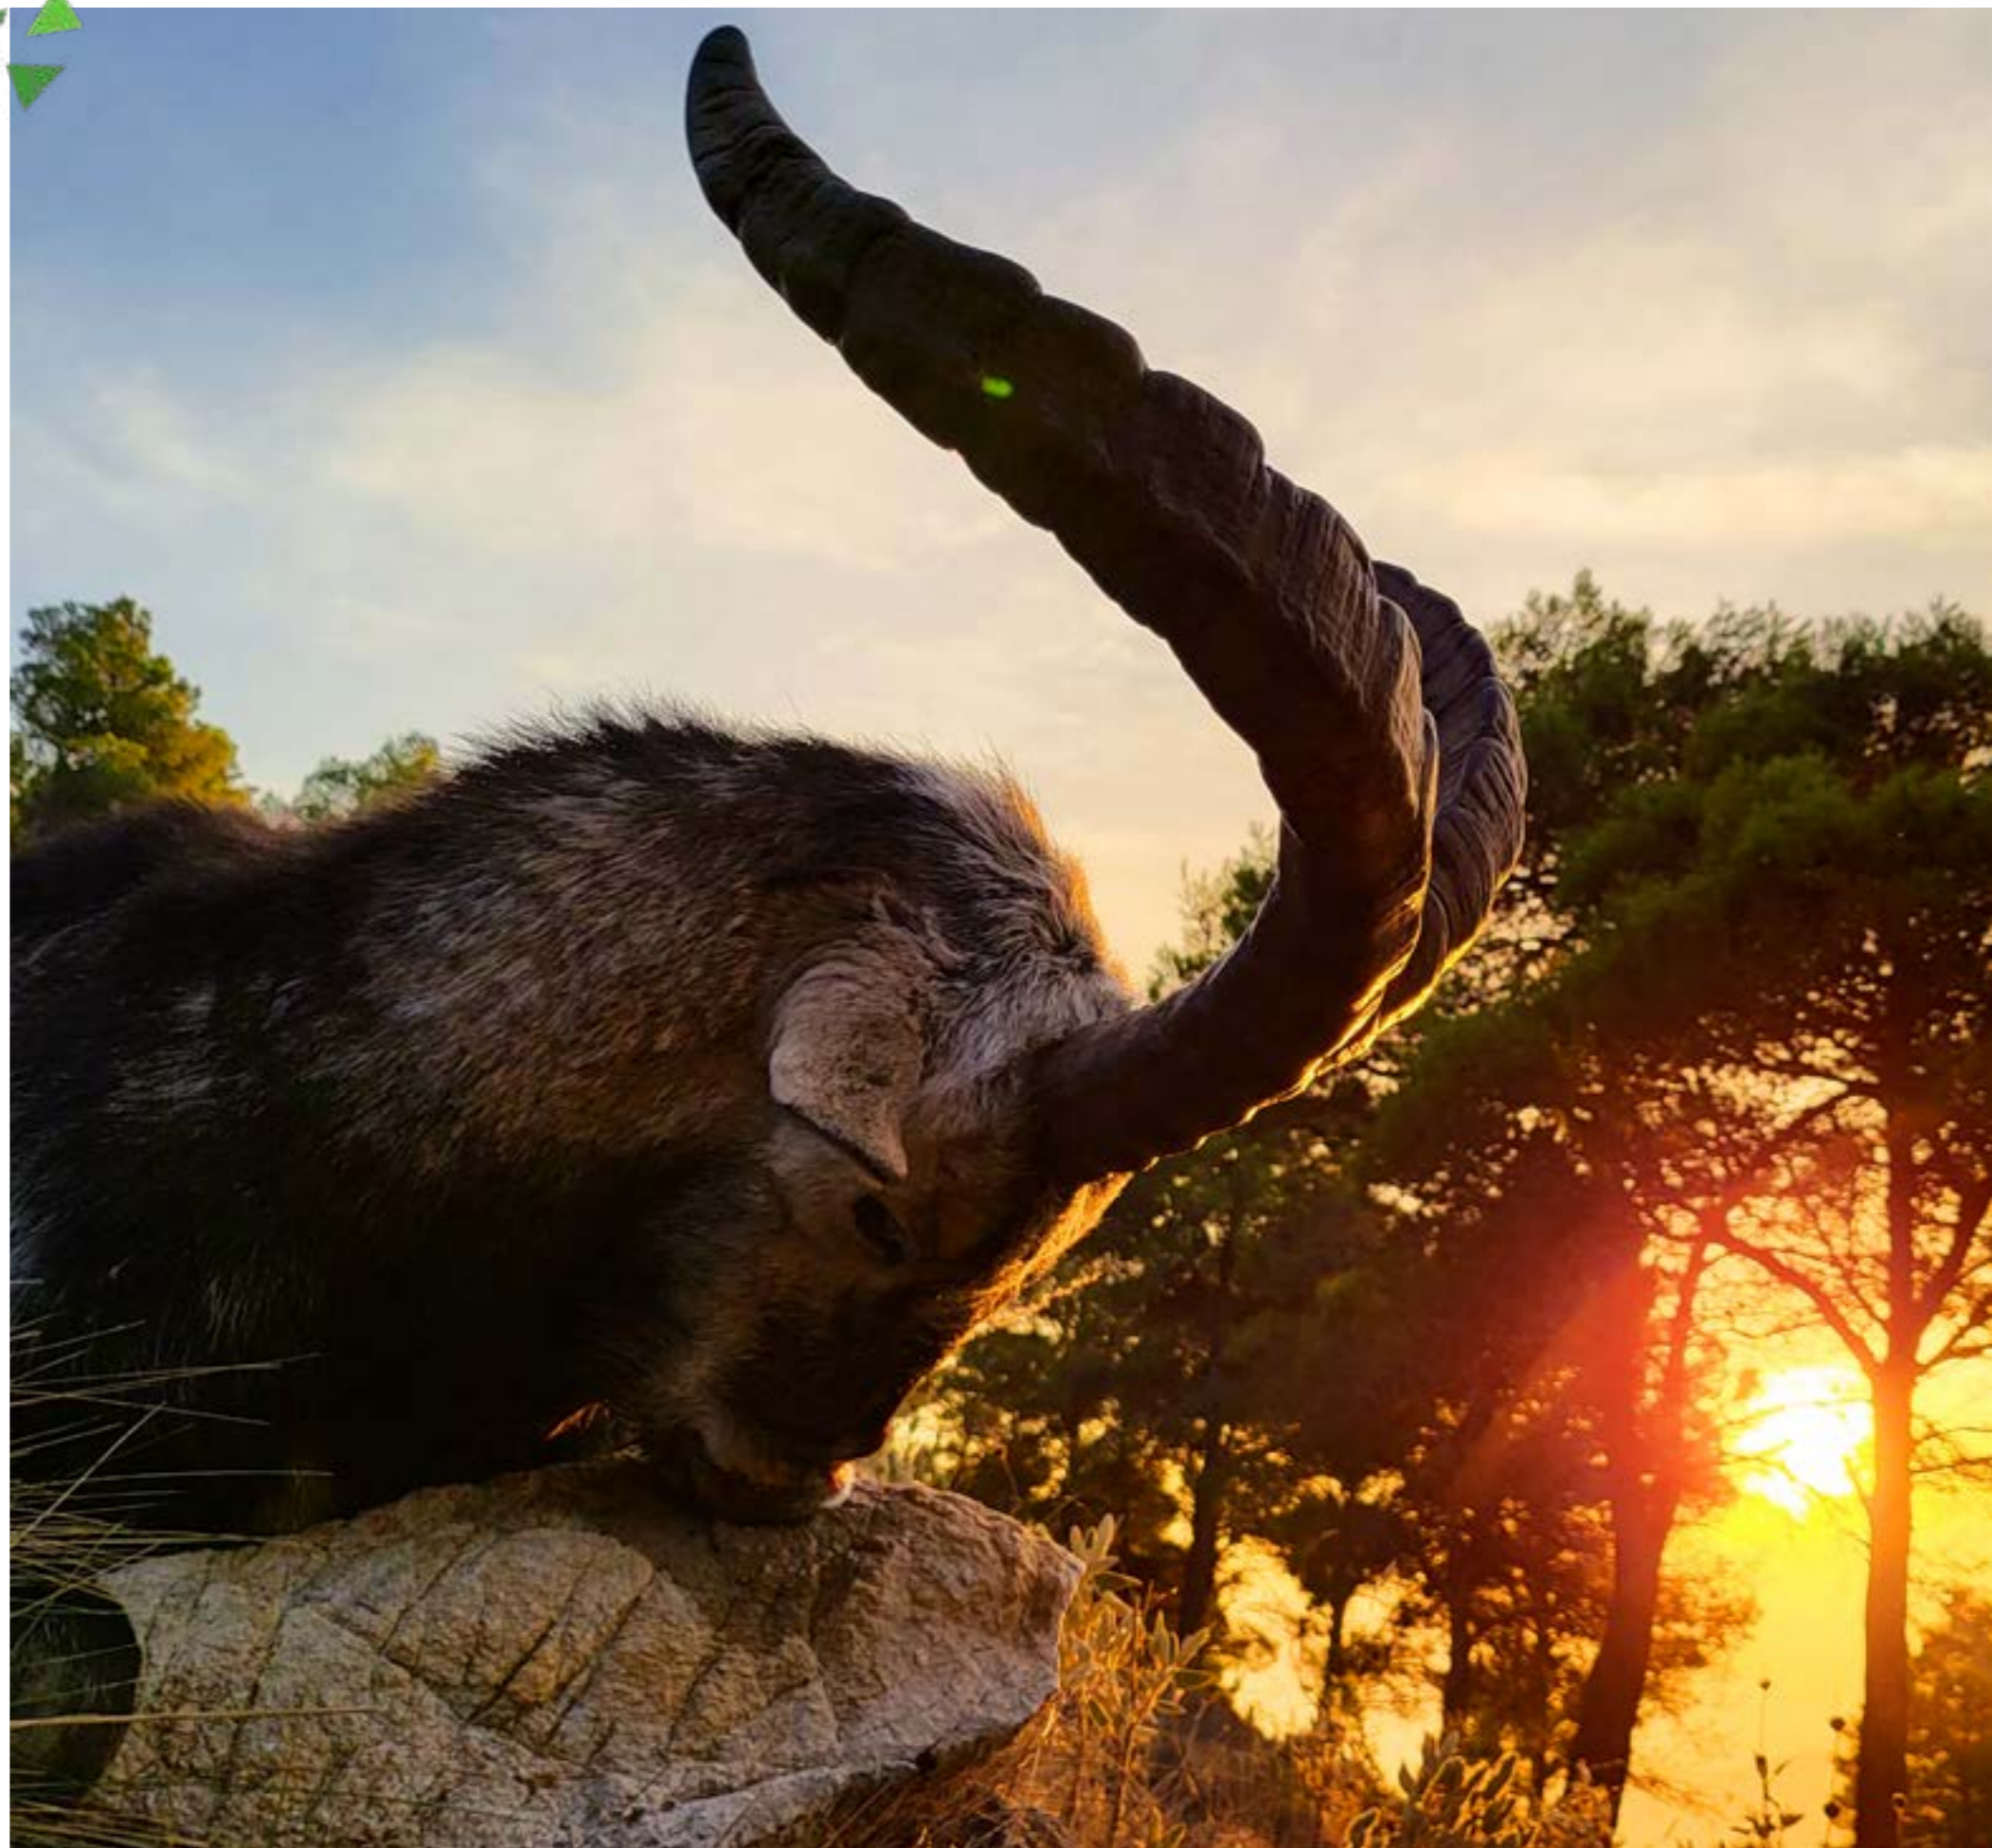

Discover our big game hunting in Spain: Beceite Ibex, Gredos Ibex, Ronda Ibex, Southeastern Ibex, Aoudad sheep, Balearian Boc, Cantabrian Chamois, Pyrenean Chamois, Red Stag Deer, Roe Deer and Wild Boar.

We operate in natural hunting reserves where there is a strict control and development of the hunt allowing the conservation of wild hunt with density of animals and good trophies.

Hunting is the most popular form of wildlife management and conservation. We are faithful defenders of the environmental policies that

regulate the territories and their fauna and that guarantee the protection and conservation of nature and its biodiversity. Proud to be hunters!

GREDOS IBEX is characterized by its dark coat and, along with the Ibex of Beceite-Tortosa, has the largest antlers. Its horns are big and ringed, with a rugged surface, and shaped like a lyre. The growth of these horns is proportional to the age of the animal, adding one ring each year.

It is famous for being the biggest of the four different Spanish Ibexes.

BECEITE IBEX. Males have large and ringed horns that expand laterally like airplane wings, a characteristic that distinguishes this species from Ibex found in other areas of the country.

The Ibex hunting season begins mid-October and ends 31st May for Beceite and Sierra Nevada, and April for Gredos and Ronda.

SIERRA NEVADA IBEX

or Southeastern Ibex can be found all over the Eastern side of Andalusia in the provinces of Granada, Almeria and Jaen. The males have thick, rough, knotty horns, normally in the shape of semicircle curving backwards.

All our hunts can be adapted to the abilities of each person.

RONDA IBEX

It is distributed across southern Spain, in the province of Málaga.

Morphologically it is the smallest of the four different types of Ibex which are differentiated in our country. The horns grow upwards in a V shape and then backwards with a spiral twist of just 90 degrees.

Ibex hunt is a really exciting stalking hunt. This is a species with a very sharp sense of smell, sight and hearing, an adversary that will contribute to the hunt.

SPANISH IBEX GRAND SLAM

We offer you a special hunting program: Spanish Ibex Grand Slam. This hunting package, visiting four different hunting areas, allows the hunter to experience a unique opportunity to complete the Spanish Ibex Grand Slam in a single trip.

During these days you will be guided by a professional hunter living the great experience to hunt in recognized Spanish Hunting Reserves known for their beautiful trophies and remarkable management. This

trip will take you through much of the geography of our country and will let you discover different landscapes, delicious regional cuisines, various traditions, and the same welcoming people in each of the places you visit.

Places off the beaten track which only the hunter can reach and no other touristic program offers. A cultural trip to experience the authentic Spanish hunting lifestyle and country by hunting the majestic Spanish Ibex.

Fallow Deer

Pyrenean Chamois

Balearian Boc

Mouflon

Aoudad Sheep

Cantabrian Chamois

Red Stag

Discover more big game hunts in Spain such as the Cantabrian or Pyrenean Chamois. High mountain hunts, surrounded by unique landscapes.

Or the Aoudad Sheep in the southeast of Spain where you can hunt during the whole year.

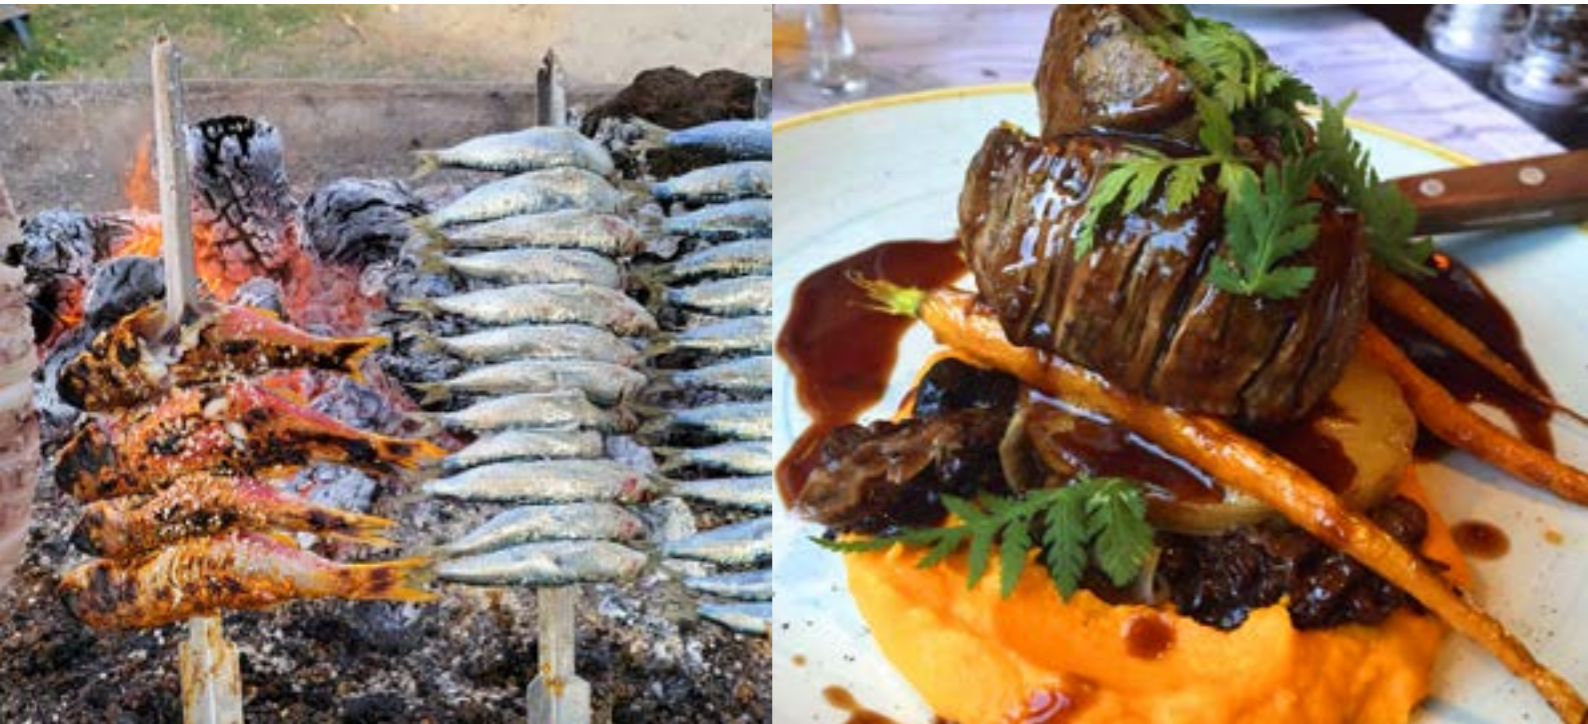

You can even hunt on the idyllic Spanish island of Mallorca, the only destination in the world where the Balearian Boc can be hunted and recognized by the Grand Slam Club Ovis.

Other species such as Mouflon, Red Deer, Fallow Deer, Roe Deer can be included as additional game to any other hunting program.

Tell us your preferences and we will organize an amazing program especially for you!

GASTRONOMY

We offer the best regional gastronomy in all our hunting programs. Spanish cuisine is famous the world over because it is flavoursome, healthy, traditional, creative and varied.

ACCOMMODATION

Highest quality accommodation, in boutique or rural hotels situated in the heart of the countryside. Charming and comfortable hotels to relax after an exciting hunting day.

TOURISM

IberHunting offers a V.I.P. Touristic Service in Spain for non-hunter companions who desire to experience an unforgettable individual tour in Spain. A large variety of cultural, gastronomic, natural or sports activities but also an authentic travel experience to meet local people, food and traditions.

Spain is the perfect destination to travel with a non-hunter companion, family, or friends. We can organize special sightseeing activities to explore the main popular destinations and the local customs and traditions: fun and entertaining days also for them!

YOUTH

IberHunting has designed special hunting programs for young hunters, offering attractive packages to introduce them to the importance of conserving our natural resources and help ensure that the hunting tradition continues to thrive.

Our young hunters will enjoy an incredible hunting experience in Spain but, at the same time, they learn about the great control and development of the natural hunting reserves where we operate, which allows the conservation of the hunt.

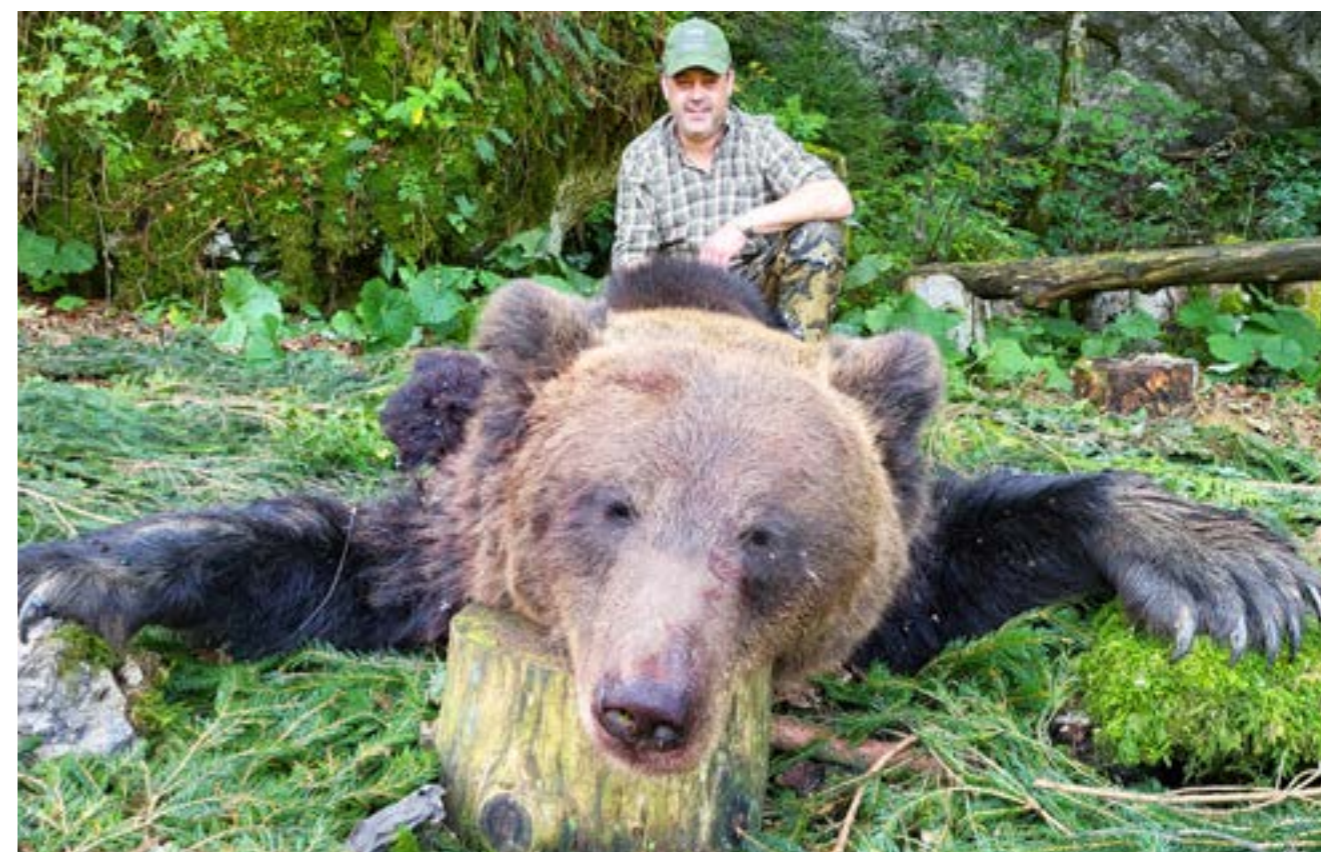

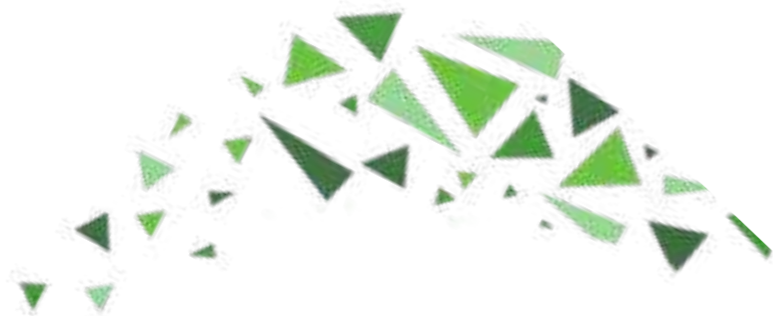

CROATIA

Croatia has extensive natural areas where the variety of game species, such as Red Deer and Axis Deer, Ibex Kri Kri hybrid, Wild Goat of Dalmatia, Feral Goat, Brown Bear, Wild Boars and many more, will surprise the hunter who likes to discover new destinations and marvel at their beauty.

Within a relatively small area, we can find an important variety of landscapes that translate into hunting challenges. A real discovery for the hunter that you will find in this small country all the hunting modalities known on the European coast.

MONGOLIA

Hunting in Mongolia is where you will discover the extraordinary beauty and solitude of the mountains. Every year, many hunters are attracted by the numerous species of big game in its high mountains which offer the great experience of hunting imposing trophies such as the Argalis (Altai, Hangay, and the Gobi), the Gobi and Altai Ibex, and the Maral.

Adventure and comfort are what you will discover hunting in Mongolia. It is a country of challenges and cultural richness, a destination that lovers of hunting and adrenaline cannot miss.

Gobi Ibex

Altai Ibex

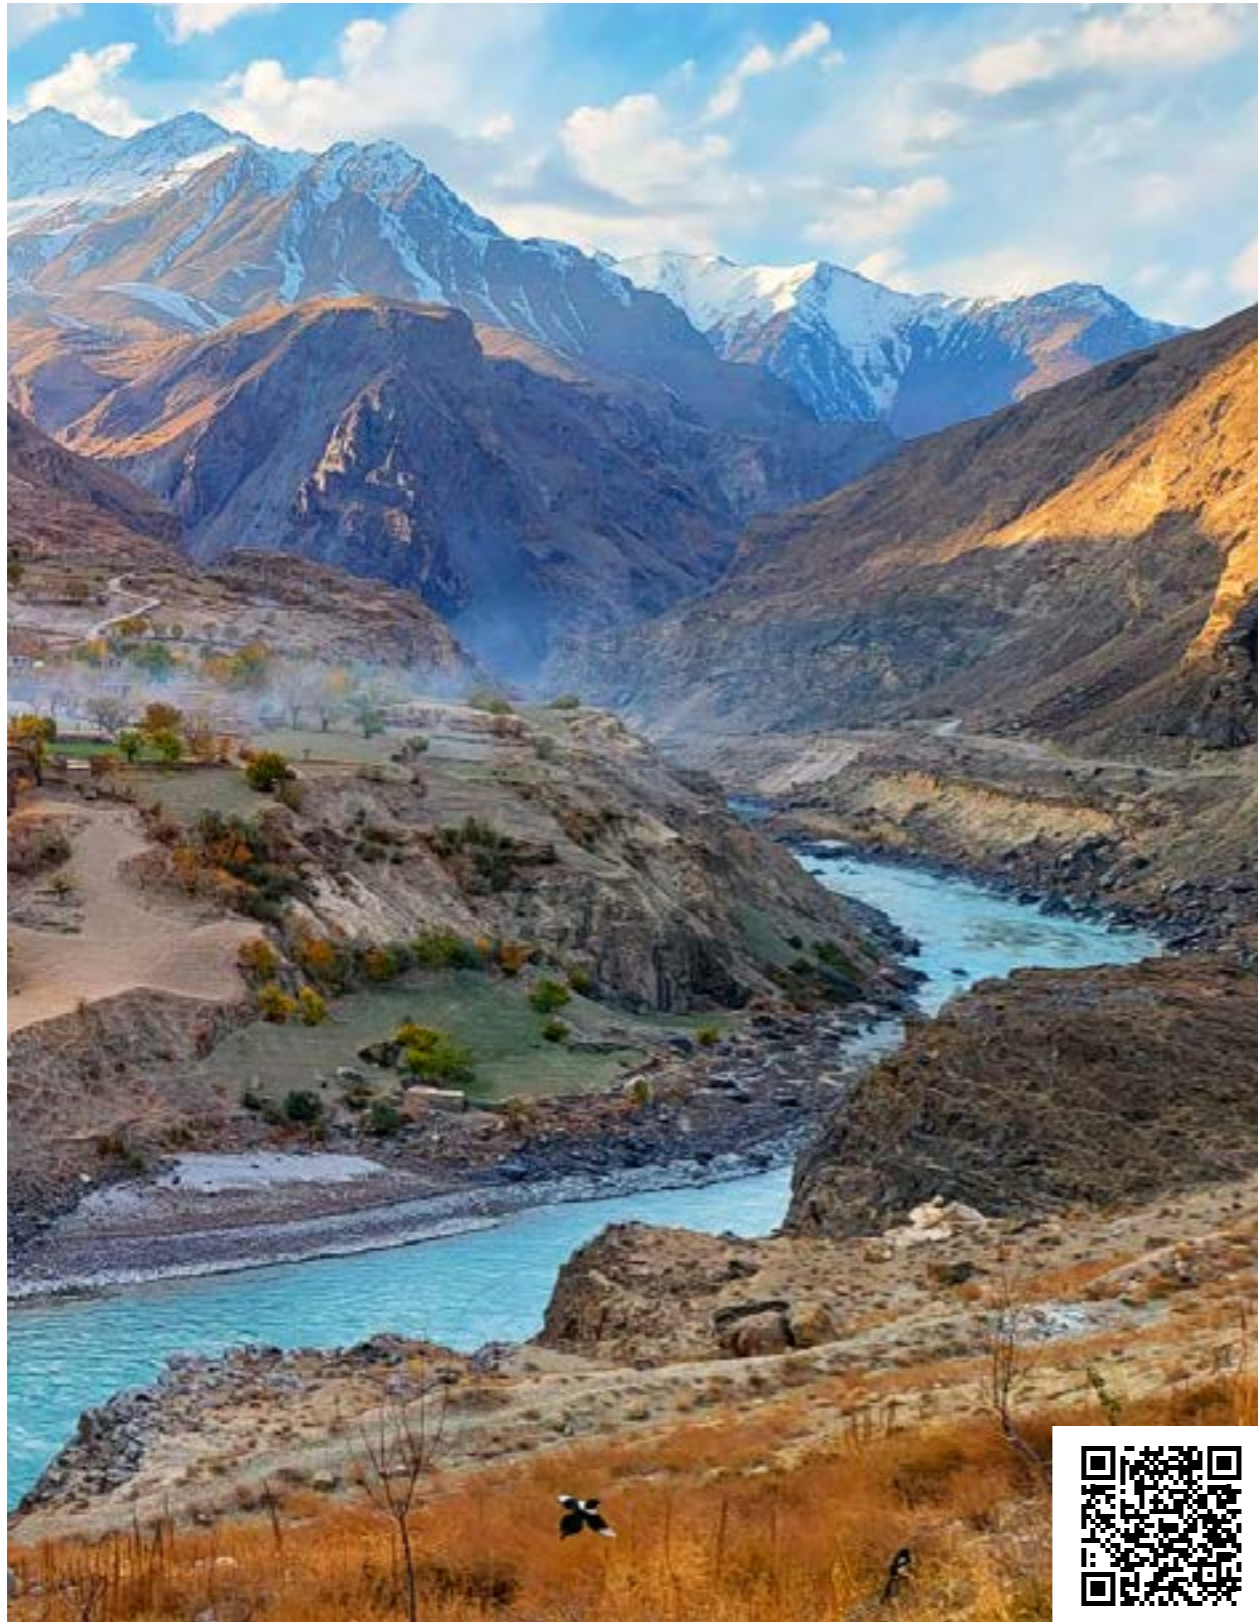

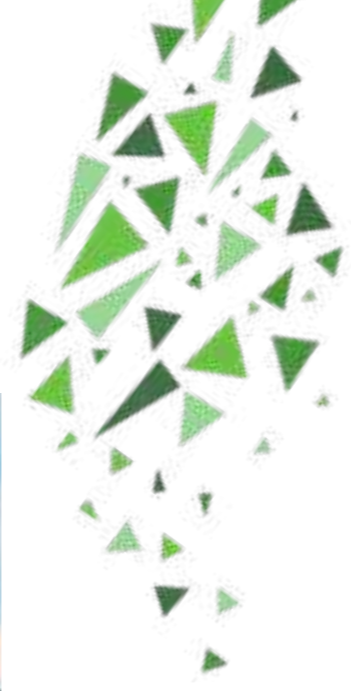

KAZAKHSTAN

Kazakhstan is one of the best places to hunt the Mid Asian Ibex because of its prime area. It is an exciting high mountain stalking that will culminate with the satisfaction of hunting a great trophy.

And for lovers of Roe Deer, in Kustanai, there are the largest of its species. Steppes and Kazakh plains where can give you free rein to the passion that hunting this animal arouses.

TAJIKISTAN

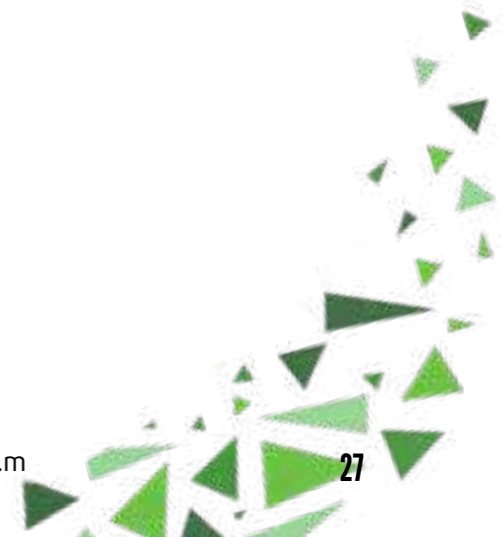

Tajikistan is the smallest of the Central Asian republics, an exotic destination with a breathtaking landscape for our adventures. Tajikistan preserves one of the most mountainous and surprising landscapes in the world, through which the mythical Silk Road used to pass.

In this country, you will have the opportunity to stalk, wait and beat enormous wild boars and to stalk in high mountains the best specimens of Marco Polo Argali, Ibex Pamir, and Ibex from Middle Asia and Markhor from Bukhara.

SOUTH AFRICA

South Africa, with its incomparable wildlife, is without doubt the birthplace of safaris. Here you can find the Big Five of Africa, making what is the African dream of every hunter come true.

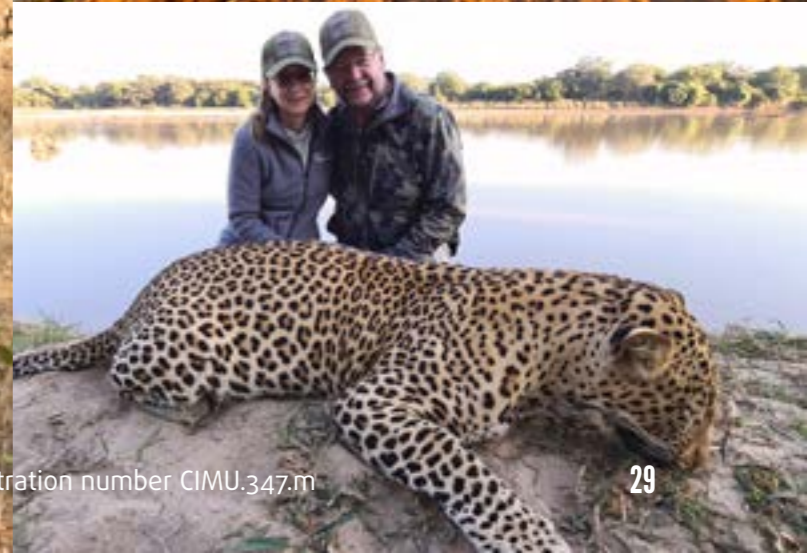

We can customize your safari and tailor it to your needs. From family-friendly safaris with buffalos and antelopes to the adrenaline-pumping experience of lion hunting in the Kalahari Desert.

ZAMBIA

Eclipsed for years by other African destinations, such as South Africa or Namibia, Zambia is a wild country where the traveler has not yet managed to leave a mark, where predators and prey roam in total freedom and the beauty and mystery of its places bewitch the visitor.

With more than forty-five species to hunt, Zambia is the best place for the most authentic safari destinations on the continent for antelope hunting and other species.

I have just been to a Monteria with iberHunting in Spain and it was perfect! Very good and professional service as always. It is nice to know, that you never have to worry about anything when you travel with them.

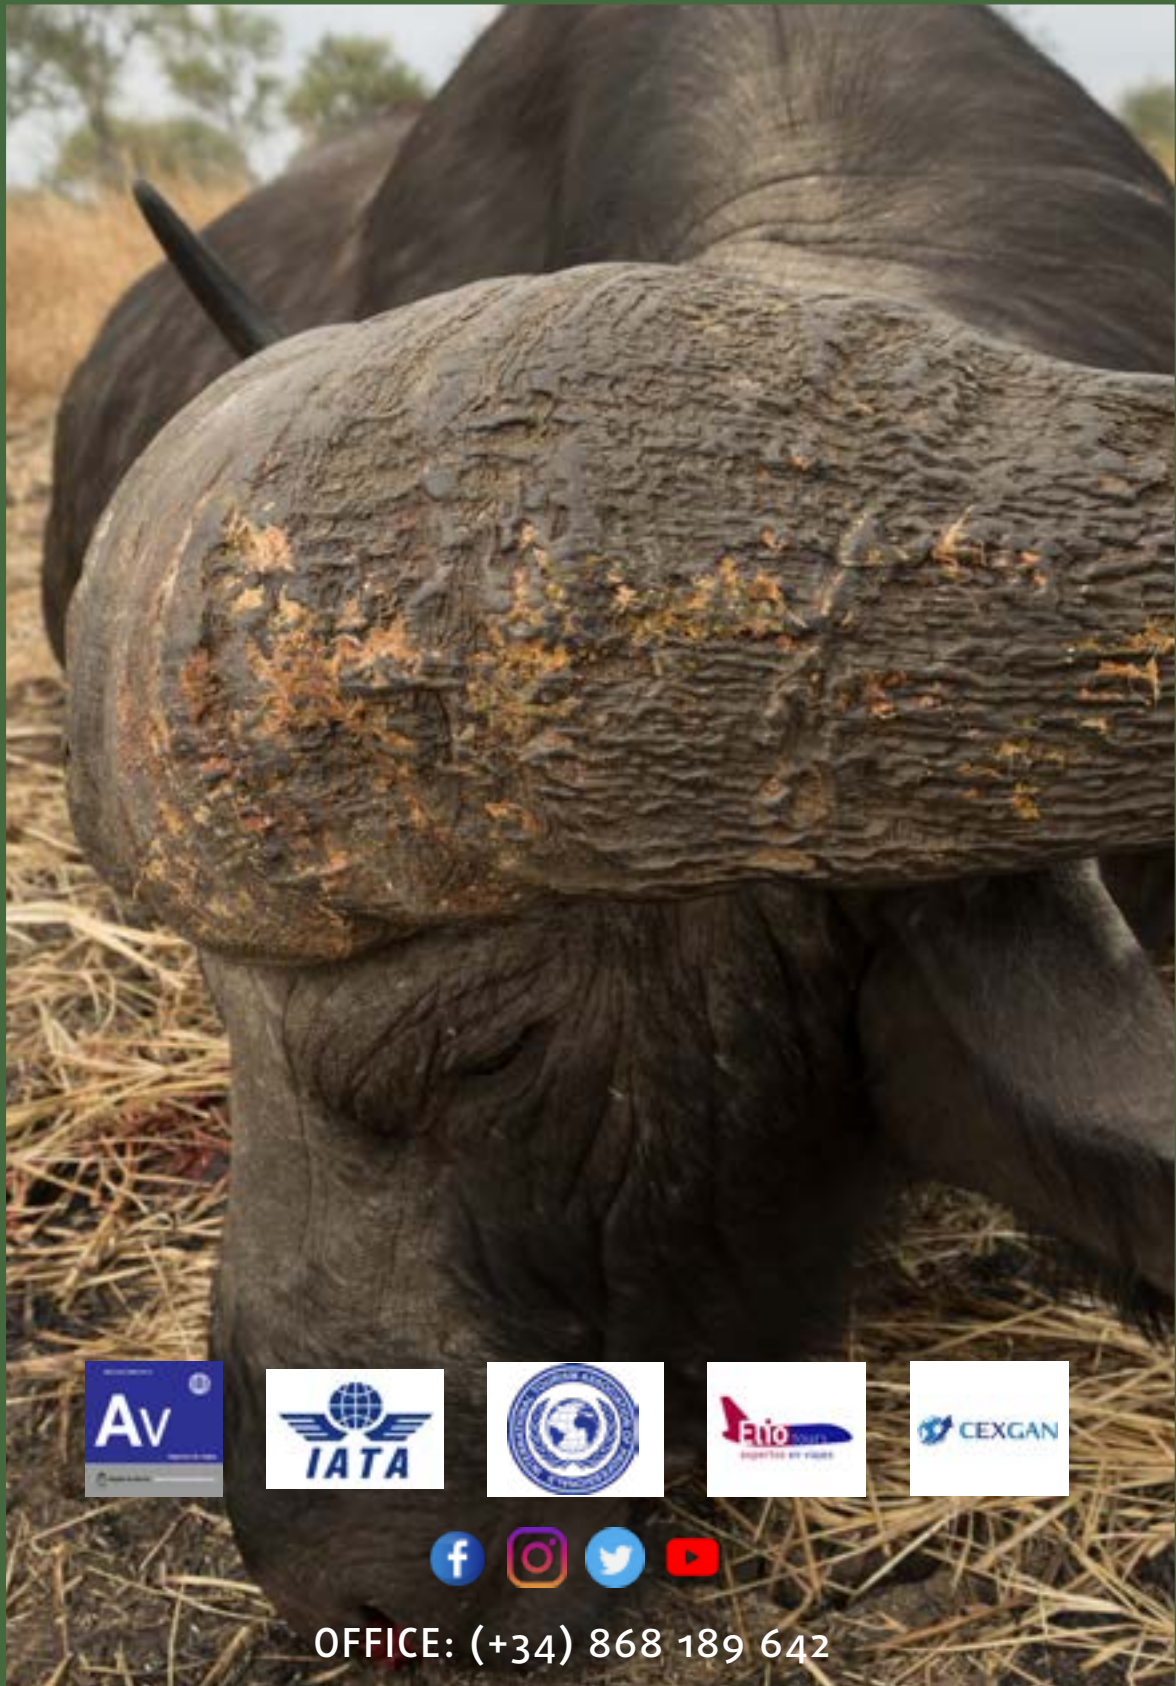

I have hunted all over the world and with many different outfitters. I must say that the entire IberHunting team are one of if not the best guide services I have ever had the pleasure of hunting with. My wife and I just came home from a 21-day safari in Zambia. Antonio and his entire IberHunting crew did an incredible job of both making this safari successful and enjoyable. It was one of the best experiences of our lives, we recommend it to everyone. Contact IberHunting, you will not be disappointed!

It's been a phenomenal experience hunting with IberHunting in the Sierra de Cazorla national park. The communication and preparation ahead of the trip was effortless, professional and proactive. The organization during our trip, including the local expertise of the guides, choice of venues and accommodation was unparalleled. I can only wholeheartedly recommend Antonio and his organization and we will definitely book another trip with him very soon. IberHunting, thank you for the priceless memories.
